Visions of Antelope Island and Great Salt Lake Marlin Stum 1999 "Marlin Stum, journalist and nature writer, grew up east of Antelope Island. He has spent much of his life exploring it and Great Salt Lake, in the field and through library research, and he currently is a state park volunteer on the island. Stum reviews Antelope's story in detail, from the dramatic impact of natural cycles of fire and flood to the island's emblematic, free-roaming buffalo herd. He covers geology and wildlife, archaeology and history, recreation and park management, and other topics, and he invariably considers Antelope Island in relation to the environment and history of Great Salt Lake and the Salt Lake Valley, from which its story should not be separated."--Jacket.

City of Saints Andrew Hunt 2012-10-30 To the outside observer, Salt Lake City might seem to be the squeaky-clean "City of Saints"—its nickname since Mormon pioneers first arrived. Its wide roads, huge Mormon temple topped by a horn-blowing angel, and orderly neighborhoods give it the appearance of the ideal American city, but looks can be deceiving. When a beautiful socialite turns up dead, Art Oveson, a twenty-something husband, father, and devout Mormon just getting his start as a sheriff's deputy, finds himself thrust into the role of detective. With his partner, a foul-mouthed former strikebreaker, he begins to pursue the murderer—or murderers. His search takes him into the underbelly of Salt Lake City, a place rife with blackmail, corruption, and death. Based on a true yet largely forgotten murder that once captivated the nation but still remains unsolved eighty years later, City of Saints reveals a darker picture of the Mormon capital than you ever expected.

Leap  Terry Tempest Williams 2001-09-18 With Leap, Terry Tempest Williams, award-winning author of Refuge, offers a sustained meditation on passion, faith, and creativity-based upon her transcendental encounter with Hieronymus Bosch's medieval masterpiece The Garden of Delights. Williams examines this vibrant landscape with unprecedented acuity, recognizing parallels between the artist's prophetic vision and her own personal experiences as a Mormon and a naturalist. Searing in its spiritual, intellectual, and emotional courage, Williams's divine journey enables her to realize the full extent of her faith and through her exquisite imagination opens our eyes to the splendor of the world.

Creatures Of Habitat  Mark Hengesbaugh 2001-05 From flying squirrels on high wooded plateaus to hanging gardens in redrock canyons, the Intermountain West is home to some of the world's rarest and most fascinating animals and plants. Creatures of Habitat details many unique but little-known talents of this region's strange and wonderful wild inhabitants and describes their connections with native environments. For example, readers will learn about the pronghorn antelope's supercharged cardiovascular system, a brine shrimp-powered shorebird that each year flies nonstop from the Great Salt Lake to Central Argentina, and a rare mustard plant recently discovered on Mount Ogden. Emphasizing how increasing loss and degradation of habitat hinders native species' survival, Mark Gerard Hengesbaugh discusses what is happening to wildlife and wild places and what is being done about it. Well illustrated, this book has habitat maps, pen-and-ink illustrations, and fifty photos of wildlife and wild places selected by photo editor Dan Miller. Also included are guides to wildlife viewing and lists of Utah species, including those considered sensitive, threatened, or endangered.

Refuge  Terry Tempest Williams 2015-03-18 In the spring of 1983 Terry Tempest Williams learned that her mother was dying of cancer. That same season, The Great Salt Lake began to rise to record heights, threatening the Bear River Migratory Bird Refuge and the herons, owls, and snowy egrets that Williams, a poet and naturalist, had come to gauge her life by. One event was nature at its most random, the other a product of rogue technology: Terry's mother, and Terry herself, had been exposed to the fallout of atomic bomb tests in the 1950s. As it interweaves these narratives of dying and accommodation, Refuge transforms tragedy into a document of renewal and spiritual grace, resulting in a work that has become a classic.

Brother Brigham  D. Michael Martindale 2007 Like many young boys, Cory Young grew up with an imaginary friend. In Cory's case, it was his ancestor Brigham Young--or rather, "Brother Brigham," as Cory knew him. During Cory's formative years, Brother Brigham filled the boy's head with grand expectations of an important mission in life. Now grown up with a wife and two young sons, Cory has sacrificed his dreams to earn a living for his family. Brother Brigham is just a distant memory-until one day he returns in a most unexpected way. As Brother Brigham's appearances and instructions grow increasingly bold, Cory struggles to hold together his faith, his marriage, and his sanity.

Great Salt Lake  Gary Topping 2002

Probably Utah's most widely recognized topographical feature, the Great Salt Lake is possibly also the state's least appreciated and understood one. While visitors often feel compelled to take a closer look at it and even test its salinity by dipping a finger or a toe, many native Utahns and tourists never take the time to explore the lake more extensively or to learn about its many facets. Awaiting those who do so is the discovery of just how fascinating a place the lake is. As Gary Topping points out in his introduction, Great Salt Lake "sounds like someone's literary fantasy: a vast interior sea bordered by marshes and dotted with islands that support thousands of shore birds of a great variety of species, yet flanked on other sides by an immense salt waste that forbids human habitation... Great Salt Lake remains one of the world's most remarkable geological phenomena, a place of beauty, drama, and complexity to challenge the most ambitious curiosity and imagination." To encourage a deeper knowledge and understanding of this unique body of water, Topping has assembled some of the best historical and contemporary writing on Great Salt Lake. The authors include historical figures such as Osborne Russell, Jedediah Smith, John C. Frémont, Howard Stansbury, and, less known, Alfred Lambourne, a turn-of-the-century artist and western Thoreau who sought solitude and contemplation by building a house on remote Gunnison Island. Also included are selections from more recent writing about the lake, among them pieces by well-known historians Dale Morgan and Brigham Madsen and other essays that look at the varied ways, recreational and economic, that people have used or sought to use the lake. The subjects of the collected pieces range from fantastic stories people tell about this odd inland sea to attempts they have made to exploit it for commercial value; from exploration and emigration to recreation and resorts; from the lake's prehistory to its future, as development and population growth near its shores create conflicting demands and pressures.
